

Pacific Coast Native Iris Open House April 8, 2006 9:00-4:00

El Centro Gardens

The Home Garden of Ryan Grisso, Anna Pascuzzi, and Little Giana

Please join us on Saturday April 8, 2006 (rain or shine) as we open our Pacific Coast Native Iris Garden. This is a rare opportunity to see thousands of Pacific Coast Native Iris hybrids in peak bloom. The garden features over 3,000 seedlings from our own hybridizing work, as well as many of the Joe Ghio and Vern Wood past and present introductions. There will also be a number of named variety hybrids potted up for sale. We are located off Highway 80, take the Hilltop exit and head East, to El Centro Rd. turn right. We are the third house from the bottom on the right (shingled house). Please park respectfully. Private visits may be arranged if you can't make it. Please call or e-mail if you have any questions.

Location:

**El Centro Gardens
609 El Centro Rd.
El Sobrante, CA 94803**
